### PRODUCT DESCRIPTION:

The Iyaly Solid Exfoliating and Moisturizing Face Scrub offers a vegan, biodegradable, and plant-based beauty treatment dedicated to the well-being of your skin. This solid scrub is enriched with biodegradable ingredients, demonstrating a commitment to environmental sustainability. Extracts from Italian fruits, such as apple and lemon, are rich in AHA (alpha-hydroxy acids), known for their exfoliating properties. The use of grape skin waste and organic wheat bran contributes to promoting a circular economy. Plant collagen, derived from corn, soy, and wheat proteins, helps keep the skin hydrated and conditioned, contributing to preserving its natural elasticity. This solid scrub provides an exfoliating experience that renews the skin, gently removing dead skin cells and leaving it radiant. The Solid Exfoliating and Moisturizing Face Scrub embraces sustainability.

### METHOD OF USE:

Wet the scrub, massage it into the wet skin of the face until it lathers, avoiding the eye area. Allow the scrub to dry after use.

### WARNINGS:

External use. Keep out of reach of children under 3 years. Do not apply on injured skin. Do not ingest. Do not use in case of hypersensitivity to one or more of the ingredients. Store away from light and in a cool, dry place.
