### PRODUCT DESCRIPTION:

The Iyaly Botox-Like Booster Serum with Peptides and Cyclodextrin is a luxurious treatment that offers an intense anti-aging, hydrating, and botox-like experience. The powerful peptides in the serum have a dual action: they work with a botox-like effect, providing a lifting and filling effect on deep wrinkles on the forehead and around the eyes, while also performing a compacting and firming function on finer wrinkles and relaxed facial contours, restoring tissue density. The Botox-Like Booster Serum delivers visible results in combating the signs of skin aging.

### METHOD OF USE:

Apply, after thoroughly cleansing the face, 2-3 drops to the five key points of the face, the centre of the forehead, nose, chin and each cheek, spread in light circular movements and massage until completely absorbed, avoiding contact with the eyes. Daily application, even distribution of the product and gentle massage favour the absorption of the active ingredients.

### WARNINGS:

External use. Keep out of reach of children under 3 years of age. Do not apply to injured skin. Do not ingest. Do not use in case of hypersensitivity to one or more of the ingredients contained. Store away from light and in a cool, dry place.
