PRODUCT DESCRIPTION:

Iyaly's Face Cream with Snail Mucin is a light treatment that absorbs quickly, offering a protective, moisturising and regenerating effect. The synergy of Snail Slime, Hyaluronic Acid and Ceramides gives radiance, firmness and evenness to the complexion of the face, neck and décolleté. Snail Mucin, with its regenerative properties, combines with the action of Hyaluronic Acid, which helps to keep the skin moisturised and firm. Ceramides protect the skin and make it more resistant to external agents. Used daily, this cream is ideal for reducing fine lines, acne marks, scars, skin spots, wrinkles and redness. The skin on the face will appear moisturised, soft, supple and visibly regenerated.

METHOD OF USE:

Apply after thorough cleansing of the face with gentle movements from the centre of the face and neck to the extremities, massage in until completely absorbed, avoiding contact with the eyes. Daily application, even distribution of the product and gentle massage favour the absorption of the active ingredients.

WARNINGS:

External use. Keep out of reach of children under 3 years of age. Do not apply to injured skin. Do not ingest. Do not use in case of hypersensitivity to one or more of the ingredients contained. Store away from light and in a cool, dry place.
