PRODUCT DESCRIPTION:

Iyaly Viper Serum Face Cream is a lightweight treatment with a fast-absorbing texture that does not leave a greasy residue. It offers a botox-like effect, providing a filling and tightening sensation, along with regenerating and firming properties. The synergy between Viper Serum, Hyaluronic Acid, and Ceramides imparts radiance and firmness while evening out the complexion of the face, neck, and décolleté. Known for its botox-like properties, the Viper Serum has anti-wrinkle and anti-gravity effects while allowing total expressiveness in the gaze. When used daily, this cream leaves the facial skin hydrated, firm, elastic, and visibly reduces wrinkles.

METHOD OF USE:

Apply after thorough cleansing of the face with gentle movements from the centre of the face and neck to the extremities, massage in until completely absorbed, avoiding contact with the eyes. Daily application, even distribution of the product and gentle massage favour the absorption of the active ingredients.

WARNINGS:

External use. Keep out of reach of children under 3 years of age. Do not apply to injured skin. Do not ingest. Do not use in case of hypersensitivity to one or more of the ingredients contained. Store away from light and in a cool, dry place.
