### PRODUCT DESCRIPTION

Original Iyaly fragrance that recreates the evocation of a colourful basket of ripe, sugary fruit, synonymous with summer, sunshine and a carefree zest for life. It is a fragrance at once mischievous and innocent, fruity in its citrus top notes, then more ripe fruit in the heart, and an overflowing base of sweetness, with white musks, vanilla and amber aspects for a 'warm embrace' effect. A perfume that bursts into laughter, it is sweet, but just enough to love it madly and never leave it again. You can run free in the grass that cloaks a hillside in the summer sun, laughing and having fun, climb the fruit trees around and pluck the gift fruits of the richest and most generous season: Mediterranean citrus fruits, juicy peaches, liqueur-like apricots, sweet cherries to eat and hang on your ears while taking a selfie laughing with friends and your fingers stained with the delicious dark red juice! What an unforgettable day!

### OLFACTIONAL NOTES

The fragrance opens with the refreshingly sparkling tones of oranges, lemons and Sicilian bergamot. Soon juicy and sweet fruity notes appear, released from a basket full of Mediterranean fruit. In the finale, seductive white musk envelops you, which together with precious amber invites the warm tones of creamy, soft Madagascar vanilla to round off this intoxicating composition.
